1 BT Federal Voice Products

1.1 Explanation and Remarks

IP Voice (IPV, VoIP) services offered by BT for the EIS contract are based on the BT “One Voice” product suite which is a cloud based service delivered using the Cisco Call Manager family of products. This service provides IP dial tone to IP phones and user screens for functions like IM/Chat, voicemail, or soft phones on government-provided computers. The Cisco Call Manager products use end-user interfaces (screens) which are Section 508 compliant. Cisco Call Manager is also compatible with a wide range of IP handsets (Phones) from leading manufacturers and their phones are Section 508 compliant. See below for specific Voluntary Product Accessibility Template (VPAT) certifications as examples.

1.2 VPAT Certification

BT One Voice Product Suite	VPAT
Cisco Jabber for Android v11.8	 Cisco Jabber for Android v11.8
